I believe in make believe ... And in imagination
Magic and fantasy
Undiscovered destinations
I believe we can be anything we want to
No matter what they say
It's all what we hold on to

Some say... seeing is believing
but I know... if you believe then you will see
Anything is possible if you allow yourself to dream
If you believe, if you believe, believe in who you are

I believe in the unseen ... an inner light that guides us
Wonder of the unknown and those that do inspire us
I know because of you
It's brought me to this moment
Held my hand thru and thru
So I could take this journey on

Chorus:

Some say... seeing is believing
but I know... if you believe then you will see
Anything is possible if you allow yourself to dream
If you believe, if you believe, believe in who you are

Bridge:

A view from my heart's ...where this story starts
An adventure of the soul
That soars way above the sky
A passage through time of fairy tale rhymes
and I'm over the moon ...where wishes do come true

(slow)

Some say... seeing is believing
but I know... if you believe then you will see

Chorus:

Some say... seeing is believing
but I know... if you believe then you will see

Anything is possible if you allow yourself to dream
If you believe --- if you believe
If you believe --- if you believe, believe in who you are
